The Democracy of Wayne township are requested to meet at the Lasseille Hall, on Wednesday evening next, the 18th inst., for the purpose of forming a GRANITE CLUB, and transacting such other business as may come before the meeting. A general attendance is requested. Several speeches are expected.

F. D. LASSELLE,
PETER KISER,
P. J. WISE,
Wayne Tp. Com. Committee.

We are desired by J. L. Worden Esq. to give notice that he has declined being a candidate for nomination for Judge of the Court of Common Pleas.

The great length of the proceedings of our Conventions has entirely crowded us out of our editorial column this week.

Dr. NORMAN EDDY of South Bend has been nominated as the democratic candidate for Congress in the Ninth District. He is a gentleman of good business habits and respectable talents, and will make a useful member of Congress.

The Democratic Convention which assembled at Albion on Wednesday last was numerously attended, every county being represented, and nearly all by full delegations. The best feeling of harmony and union was manifested, and Hon. E. M. Chamberlain of Elkhart Co. was nominated candidate to represent this district in Congress, by acclamation. No other person appeared to have been thought of for the station in any part of the district. The unanimity of the choice, added to Mr. Chamberlain's great personal popularity, undoubted democracy, and high qualifications, will we hope insure his election. We cannot conceive that anything could induce a single democrat in the district to vote against a man so well deserving their support, and who will make a representative as creditable to the district and his constituents, and honor able to the State.

Highly important from Washington.
We hasten to lay before our readers the highly important intelligence received from Washington by the last mail. Both Houses of Congress have actually agreed to adjourn on Tuesday the 31st inst. The fear of the timid—the alarm of the economical—that this august body intended to remain in permanent session, and draw their eight dollars a day for talking for Buncombe, are proved to be groundless. After a session of nine months, Congress has at length adopted one measure in which the Country feels an interest, and that is to adjourn. As Shakespeare says—“Nothing in this life became them so well as leaving off.”

Burglar Arrested.—On Wednesday last, a suspicious looking fellow, Michael Bauer from Buffalo, arrived in this place, accompanied by two boys from Lafayette. His movements excited some suspicion, and on Thursday the Mayor had the trio arrested on a charge of vagrancy. On examination one of the boys confessed that they had attempted to enter the shop of Mr. Rambon, jeweller, the evening previous, but had not succeeded. On searching Bauer's trunk, 67 skeleton keys, a pair of burglar's forceps, and a fine new revolver were found.

Dauer was here about three weeks ago, peddling penknives, razors, &c., which were suspected to have been stolen. The Mayor immediately telegraphed the fact to Toledo, Buffalo, &c., and received a dispatch from Messrs. Eldy & Morley of Toledo, stating that they had been robbed about that time of 300 penknives, razors, a revolver, plated ware, &c., &c. Bauer remains in our jail awaiting a requisition from the Governor of Ohio to send him to Toledo.

Land Bills Rejected.—In the Senate on the 5th, Mr. FULTON reported back the following bills from the House: Homestead, Land Distribution, and Walker's giving public lands to States in which they lie, with recommendations that all be negatived.

Fishing Difficulty Settled.—The fishing difficulty has been temporarily settled. A dispatch has been sent by Mr. Crampton to the British Government urging them to suspend their orders and withdraw their naval force.

Cholera.—There have been two or three deaths by cholera this week, among a family of newly arrived French Emigrants, and two of our citizens have also died—but whether of cholera may be a matter of doubt. In one instance it was undoubtedly caused by indiscretion in diet.

Though these are all the cases that have occurred, and there is not the slightest appearance of the disease becoming epidemic, the rumor has flown abroad, and is doubtless disseminated by peddlers and others having an interest in keeping persons from visiting our

city, that the cholera is raging fearfully here and sweeping off its 25 or 30 victims per day. Common rumor is seldom a reliable source, and in this case should not be implicitly depended upon. There are always individuals to be found who are so fond of the marvellous that they will readily draw on their imaginations for all that may be lacking to render their stories attractive, and there are others who are so naturally given to lying that it is scarcely possible for them to tell the truth on an occasion like this which admits of so much exaggeration. There is a gross specimen of this latter class loitering round the classic neighborhood of Hoboken, who we are informed neglects every thing else to indulge his favorite propensity, and exhorts all who will listen to him to avoid staying in Fort Wayne as they value their lives. It would be a loss of time to endeavor to convince such a man, by words of the improbability of his course; but if some of whom he imposes upon with his falsehood would present the insult by a vigorous application of a cow-hide, they would render community a good service.

Write Congressman.—The Whig Congressional Convention met at this place this morning and nominated JOHN M. WALLACE Esq. by acclamation. They passed no resolutions and adopted no platform. They propose fighting without regard to principle. The people understand you, gentlemen!—*Marion Journal.*

This John M. Wallace, when he lived here, called a meeting to organize a Native American Party. The whig ticket in that part of the State, is all of a piece: first is Gen. Scott, their candidate for President; who is the father and founder of Nativism; next is Judge Kilgore, of Delaware Co., Presidential Elector, who in the Constitutional Convention, said that the free negroes had ten times more intelligence than the citizens of foreign birth; and now comes John M. Wallace, for Congress, who made an abortive effort to start the ball of Nativism in Fort Wayne. Whigery in that region shows the cloven foot rather plainly.

COMMON PLEAS PROSECUTING ATTORNEY.—It is not generally known that a prosecuting attorney is to be elected for the new Court of Common Pleas. We presume the democratic Senatorial and Judicial Convention, which meets here next Wednesday, will nominate a candidate for that office. We have not yet heard of any applicants.

Circuit Judge.—The Democratic Judicial Convention on Wednesday last, nominated Judge McMahon, President Judge of the present circuit, Judge of the new Territory. Judge McMahon has given general satisfaction in the discharge of his duties on the bench, and we rejoice in his nomination.

J. M. CONNELL of Washakie Co. was nominated for Prosecuting Attorney. We understand he is a young man of decided abilities, and well deserving the support of the public for the station to which he aspires.

C. F. MEYER, who has for some years been in Mr. Reed's Drug Store, and is favorably known as an attentive, careful, and skillful apothecary of medicines, has entered into partnership with Watson Wall, corner of Albion and Post Streets. They have a fine stock of Drugs, &c. and being well deserving patronage, we cannot doubt the new firm will do an excellent business.

We do not forget that Genoa quite as well as the new partner, but we will try and wind up this article in our own language.

Our wishes for the West.

Extension of the Ohio and Indiana Railroad.
The following article we copy from the Fort Wayne Sentinel, and recommend the subject of the article to the attention of the citizens of Kosciusko and Marshall counties. Knowing that our attention had for some time been directed toward another very important route for the interests of our country, we at the present we refrain from making any suggestions as to holding a convention, or as to the comparative advantages of either, or as to the probability of success. Something must be done soon. We shall notice this matter at a subsequent period.—*Warsaw Rep.*

The Valparaiso Observer also cordially second the project of holding a Railroad Convention, and promises that Porter Co. shall "wide awake, and ready to participate as well along the line." It proposes that the convention be held at Plymouth.

Good News.—Dates from Fort Smith to the 25th ult., state that an express from Fort Leuckie had brought the cheering intelligence that Capt. Marcy and his party are still alive, and that the reported massacre by the Comanche Indians is incorrect. The gratifying news was fully believed at Little Rock.—*Cleveland Herald.*

Railroad Meeting.
At a meeting of the citizens of Allen County, convened at the Court House, Wednesday afternoon the 11th inst., in pursuance of notice previously given by the Executive Committee of the Lake Erie, Washakie and St. Louis Railroad Company, Lot S. Bayless was called to the chair and JOHN HUGHES Jr. chosen Secretary.

The committee not having arrived, the chair stated fully the object of the meeting; after which remarks from the chairman, followed by others, it was

Resolved, That Peter P. Bailey and John Hough Jr. be a committee to draft and report resolutions expressive of the sense of the meeting upon the question of building a railroad through this valley, and its importance to us as a community.

Whereupon the committee reported the following resolutions which were unanimously adopted:

Resolved, That we regard the project of building a railroad from Lake Erie, through the Maumee and Washakie valleys, thence to St. Louis, with a branch to Peoria and Oquaka or Burlington on the Upper Mississippi, as a work of great importance to the community, and that any effort to obstruct it, we can now be engaged, as by it we will be placed at the converging point of two great lines of railroad starting from the cities of Boston, New York, and Philadelphia, running on the North by way of Albany, Buffalo, and Dunkirk, and on the South by Pittsburg, thence to Fort Wayne, where a portion of our road must be used for a common line westward, until they diverge into two long arms reaching on the North by way of Peoria and Common Bluffs, and on the South by St. Louis and Independence, to the Pacific Ocean.

Resolved, That the citizens of Allen County, having been among the earliest advocates and firmest friends of this project, they will not be behind their neighbors in subscribing to its stock, nor in continued devotion to its interest until the work is fully completed.

Resolved, That we deem the work of such paramount importance, that while the citizens have subscribed largely to plank and railroads to the amount of four hundred thousand dollars, a sum unprecedented in a population no greater than ours, yet we believe, they are prepared cheerfully to subscribe another

hundred thousand dollars to a work of such moment to us as a community as the Lake Erie, Washakie, and St. Louis Railroad.

Resolved, That we recommend to the board of directors, when elected, the adoption of the most energetic measures for the early completion of the road, and that we regret the absence of the committee at whose instance this meeting had been convened, as we deem it to have resulted from their ignorance of the interest felt by this community in a project of such vast importance.

Proceedings ordered to be published.
LOT S. BAYLESS, Chairman.
JOHN HUGHES Jr., Secretary.

From the Lafayette Journal.
Washakie Valley Railroad.
NEW YORK, July 30, 1852.

EDITOR OF DAILY JOURNAL.—Sir: To save time in writing to friends and associates in the enterprise of the Lake Erie, Washakie and St. Louis Railroad, I beg the use of your columns for a short letter.

Although many of the parties with whom I wish to confer are not now in the city, yet the subject of our road challenges the interest of the community wherever it has been presented. Every day marks more and more prominent position on the map and illustrates especially the value of the Washakie position. Our alliance will be sought from various quarters. For example: the interests that cluster about Sandusky, many of them represented by Boston owners have already surveyed and marked the line from Tiffin to Fort Wayne, which will open to us an express route in connection with the South shore line. On the other hand, the directors of the Southern Michigan Road have publicly announced a resolution to meet at the eastern end of the road by a line from Toledo, so soon and as fast as we construct the Washakie position. We shall be powerful enough to command both these alliances. The Sandusky route brings us in immediate connection with the South Shore Dunkirk and Buffalo route, while the Toledo route gives us a better connection with Detroit and St. Louis than any other built or in contemplation. I have just read the last report of the Directors of the Great Western (Canada) Road. The money is now raised, and in the hands of their bankers, to complete and equip it, and a large list of equipments has been contracted. It will be opened its entire length from Niagara Falls to Detroit, with a rail weighing from 65 to 80 pounds, by the 1st of August, 1853.

So much for the eastern feeders of this great arterial Washakie line with its bifurcated trunk spanning the two Great Lakes, and its lateral line, running in every northern market from Montreal to New York.

Turning now to our western outlets through Illinois we have first the "Northern Cross Railroad" through Springfield with its direct extension to Hannibal and St. Joseph, and its easy connection to St. Louis, and the route via Danville, Paris and Alton to St. Louis. The public is aware that a state of advancement both these lines are in—the first 54 miles of track towards Hannibal, and 90 miles towards St. Louis are completed and in operation, while other portions are in rapid progress. On the 10th week of the year the Sangamon and Morgan road resolved to proceed immediately with the construction of the line from Springfield to Decatur, if their stockholders shall approve the resolutions, of which there is no doubt, and which indeed their compact with Illinois requires. This road is in powerful hands, and to use a term of political economy may be considered as an independent line, in regard to our route to St. Louis, through Paris and Alton, your readers are aware that the road from Paris to Alton is under contract, forming a part of the Terre Haute line. The connection of Paris with Danville over thirty-four miles of the wealthiest and driest portion of the State, and the route without a stream in cross, is of course a question of a recent date, and is the inevitable result of the construction of the Upper Washakie valley, and of the Terre Haute and Alton routes. It is, in conclusion, I know, interesting to the public to learn that the project of a direct route to St. Louis, by way of the Upper Washakie valley, and of the Terre Haute and Alton routes, is in the hands of the State, and is the inevitable result of the construction of the Upper Washakie valley, and of the Terre Haute and Alton routes.

Our position in regard to Lake Erie is such that the Washakie Valley road is by far the most commanding thoroughfare between the Northern cities both of Canada, the Western States and St. Louis. Nor will its extension to Evansville and the Southern cities, be so much directed toward the West, as the route via Danville, Paris and Alton to St. Louis. The Washakie Valley has ever since the railroad era commenced been regarded as the natural channel between the Northern Atlantic cities (including those of the St. Lawrence) and the Gulf waters of the Ohio, the Illinois, the Missouri and the Mississippi rivers. Until now it has been the province of the Legislature jealous of their canal interests has held the key. A more liberal policy has at length gained the ascendancy, and the first fruits of the General Railroad law of Indiana is the organization of the Lake Erie, Washakie and St. Louis Railroad. I hazard nothing in the prediction that this will be the greatest of the Western roads.

I shall not fail to perform the duty assigned me by the Executive committee, in presenting its claims to the consideration of parties at the east interested in our alliance. Before now I trust the survey of the experimental line, engaged by the committee, is going on. With the election of the first Board of Directors, on the 18th of August, the duties of the Executive committee and my own semi-official connection with the road will cease. That Board of Directors will have work to do and most important interest to negotiate at home and abroad; but if well done it will greatly reward both them and our constituents.

Respectfully,
ALB. S. WHITE.

Latest from England.—The general elections throughout the kingdom were not concluded, when the *Herrnau* left: the returns from some English and Irish counties having yet to come in. It is not yet known what the result, to render it certain that Earl Derby's Administration would not be able to command a working majority in the House of Commons. In fact, there were indications that the Government would probably be in a minority, and would have been obliged to resign, but they were further tenacious of power. Much would depend upon the voting of those members classed Moderate Conservative, and who, although holding Conservative opinions, were Free Traders and not pledged to the Derby Government. Although the Derbyites reckoned these members as likely to support them, yet the Liberals counted on an accession to their ranks from politicians of their shade, while the remnant of the Peelites, headed by Sir James Graham, would most undoubtedly join the Liberals, and thus increase the numerical force of the Opposition. That any attempt to re-impose a tax upon the food of the people will be successfully made in the next Parliament, is in the last degree improbable.—*New York Tribune.*

Poison Lites.—Bro. Z. Breed of Weare County, writes us, that from his own repeated trials, there is no remedy so sure and speedy for curing the poison of cholera, as a tea rendered by simply chewing tender leaves of the plant itself. Many poisons that would externally are quite innocuous when taken internally; and have some counteracting influence. This is the case with Ivy without doubt. Bro. Breed is a man whose word can be relied upon, and we recommend our friends at this season when so many opportunities are offered, to give a fair trial.—*New England Farmer.*

Str JOHN, N. B. Aug. 2.
The Schooner Coral condemned for a breach of the fishery treaty was sold here to-day.

From Santa Fe.—Dr. Hammond, Surgeon in the United States Army, arrived yesterday in this city, and left the same day for Harrisburg, Pennsylvania. He brings but little news, in addition to what we have received.

Col. Sumner, who acting as the Military Commander, and also the Civil Governor of New Mexico, has formed treaties with all the Indian tribes, and peace and security were expected. The two bands of the Apaches were the last to treat, but the establishment of forts in their territories, and in the country of the Navajos, has produced very favorable results.

The last treaty was concluded but a few days before the departure of the mail. Col. Sumner was in Santa Fe, actively pressing forward his plans in the various sections of the Territory. Dr. Hammond left in the mail stage on the 1st inst., and was only twenty days in making the trip.

North Carolina Election.—Returns thus far received show about equal gains, both for Reid and his opponent, though the chances seem to favor the democratic candidate.

Returns from 25 counties give Reid dem. candidate a majority of 4,602, being a gain of 2,000 over his vote in 1848.

Missouri Elections.—Col. Benton Elected to Congress.
St. Louis, Aug. 4.
The result of the election in now known, and is as follows:

1st Ward, Benton 972; Boggy, (regular democratic nominee) 58; Caruthers, (whig) 127.
2d Ward—Benton beat all the others about 150.
3d Ward—Benton, 457; Boggy, 130; Caruthers, 119.
4th Ward—Benton beats all by about 200.
5th Ward—Very large vote cast, and Benton gets nearly 900 out of the 1500 votes cast.
6th Ward—Benton, 318; Boggy, 5; Caruthers 151.

Several precincts heard from, in all of which Benton beats both opponents.
From Cornetel Precinct, and Genard and St. Genevieve, Caruthers, Benton has run higher than was anticipated, and no doubt is felt that he is elected.
